

Executive Inner Circle

Lead. Learn. Shape the Future

"It was by far the most impactful conference I believe I have ever attended. It was tight, engaging, interesting and enlightening. So well done. Congratulations to all of you and your team for putting together this incredible event."

The Executive Inner Circle (EIC) is CSCMP's invitation-only network designed exclusively for senior executive members. This group brings together a hand-selected mix of top-level supply chain practitioners and leading service providers, each recognized as a decision-maker and innovator within their organization. EIC members meet in person three times per year in a private, peer-curated environment designed to foster candid conversations, meaningful connections, and the exchange of high-impact ideas. Each gathering is designed to spotlight cutting-edge strategies, benchmark world-class companies, and encourage collaborations to navigate the ever-evolving global supply chain landscape. In addition to these exclusive gatherings, members gain priority access to CSCMP's most valuable executive-level content, advanced training, premier events, and a global network of influential leaders.

New Orleans, LA
February 2024

NASA's Michoud Assembly Facility

Executive Inner Circle
New Orleans Summit
March 2024

From an immersive tour of NASA's Michoud Assembly Facility to thought-provoking discussions with distinguished experts, the summit provided a comprehensive exploration of key topics driving innovation, resilience, and collaboration in today's global landscape.

Austin, TX
March 2025

Avathon's HyperWerx Labs

Executive Inner Circle
Austin, TX - March 2025 Summit

Attendees toured Avathon's cutting-edge HyperWerx Innovation Lab, a hub for technological advancements that is shaping the future of supply chain and logistics. This immersive experience presented pioneering solutions firsthand, including AI-driven analytics, next-generation automation, and groundbreaking sustainability initiatives.

Cambridge, MA
June 2025

MIT Center for Transportation & Logistics

Executive Inner Circle
Boston, MA - June 2025 Summit

Senior industry executives and MIT faculty gathered for immersive learning, featuring guided lab tours, strategic briefings, and interactive roundtable discussions. A key takeaway was the growing momentum behind Supply Chain 5.0, an evolution toward supply chains that are more adaptive, intelligent, human-centric, and resilient in the face of disruption.

What Participants Have to Say About the EIC

"Thank you so much for the invite as the event was amazing. The accomplishments and insights of the speakers is indescribable and I have a long list of "take-aways" to ponder and pass onto the organization. The event was also humbling as when I reflect on my career, how many times was I just holding on to get through the latest disruption vs adding value and moving the organization forward..."
